Office: (815) 335-2825 • Craig Crutcher: (815) 289-2855

www.perksranch.com

Dear Fellow Cattlemen,

It is that time of year again; calving season has started for some, or will be beginning soon. Fall calving herds are finishing up their breeding season. Many of you are looking for the next herd bull to add to your lineup. We ask you to look with open eyes at the set of bulls we are offering to you this year. These bulls are easy fleshing, heavy boned, sound and have great dispositions – qualities which we as cattle breeders are looking for. They have been strictly culled through and with great confidence any of these bulls could be used in our own herd. Last summer we turned out 11 bulls to breed, nine of them were raised here at Perks Ranch. We feel that this is a great testament to our program, and offer only bulls that we would be proud to use ourselves.

Our Hereford lineup has a great combination of maternal and performance sires represented. Many of you know about Rambo and Reload, but we have three other sires that we added, with one being a Perks Ranch raised sire, PR 80P Overload 6014. The other two sires are MH Dakota Lad 5115 and LPG Independence 67H, both of these bulls will add a complete outcross pedigree to most herds along with added fleshing ease and soundness.

The Red Angus bulls that we are presenting to you have a lot of the same characteristics of the Herefords. They are sired by some of the stoutest bulls in the breed and by some breed leading maternal bulls. We are proud to offer you some of the first calves by Get 'R Done and Hoss, along with bulls sired by two of the most intriguing bulls in the breed in Get Western and Red Dawg.

The bulls that are offered for sale by Perks Ranch come with a full one year breeding guarantee. We also will work with our customers on getting the best and most affordable trucking. Volume discounts will be available on purchases of three or more.

*Best Regards,
Doug Perks
Craig Crutcher
Wade Perks*

Testimonials...

“The cattle that I have bought from Perks Ranch have been outstanding, and the bulls that I have bought have been fantastic and have thrown real good calves.”

— Roger Calsyn, Illinois

“Perks Ranch Hereford bulls are exactly what we look for in herd sires. They have the carcass traits that allow us to market the calves several different ways. They also have the phenotype and maternal traits that we desire to pass on to all of our replacement heifers. The bulls have a great disposition that has been passed down to all of their offspring. The Hereford bulls from Perks Ranch also have the longevity that a rancher needs from his bull battery as well as the adaptability to thrive in the hot summers and cold winters of southern Oklahoma while covering rough country. The customer service of Craig and the Perks family is second to none. They are willing to work with buyers and deliver bulls to points all across the country, which is just one of the many reasons I like doing business with Perks Ranch.”

— Zac Pogue, Oklahoma

“We have had the good fortune of knowing the folks at Perks Ranch for going on 10 years and feel very blessed to have that relationship. Over the years we added to our herd with Perks genetics through the purchase of quality bulls and exceptional females. With each addition we have not been disappointed. The service provided by the staff at Perks has been second to none, from discussions on genetic improvement to our herd, to logistics of transportation of animals, each time they have far exceeded our expectations. I would not hesitate to encourage anyone to have a conversation with the staff at Perks about what they can do to help you with your next herd sire selection.”

— Mike Shepherd, Kansas

“Overload has offered us all the power of Reload with the easy doing, maternal traits of 59J all wrapped up in a calving ease package. The Overloads will be some of our top show prospects next spring.”
